

Dear Accounting Teacher

Are you looking for **grade 8 and 9 Accounting textbooks**, but not finding anything that you feel will prepare your learners for Accounting in the FET phase? Or you just can't seem to find an Accounting book with explanations and sufficient exercises to make sure the concepts are understood?

Look no further...

We have GREAT Accounting books available in English and Afrikaans, authored by two “young ladies” (OK young at heart ☺) with more than 60 years experience (combined) teaching Accounting from grade 8 to grade 12.

Go to www.consumo.co.za for extracts from the books.

Best wishes

Estie and Zain

The Consumo Team
